

the present time & Micrographics barons for \$1229.00 -- I will investigate a bit further and at next meeting propose that we buy. Does need a reader/printer? Not at the moment. The newspapers that I took down recently have already been paid for -- slightly over \$700. I shall get together another lot & send them down. The subject of John's dismissal came up and was handled very diplomatically by Anne. She said that the Library needed someone who could be available during the day. She reported that the new person -- a college student who is able to work only for a month; I believe he is Joan Congrove's brother -- has already painted the ladies' room, plastered the wall at the foot of the stairs, and cleaned up the 3rd floor. A new maintenance person is needed by the end of the month. Mr. Duran & Mr. Washelenski are both now old men -- it seems strange to see them as old men. They were both at Fell High School twenty-five years ago when I was first there. After the meeting Joe Pascoe drove me down to Andrews, where RGT was supposed to have set up a meeting of the CITS&M Board of Directors. No one was there, probably because RGT didn't call anyone. He can be so maddening -- he is undependable & irresponsible. Deplorable, he tries to get out of his "corner" by lies -- and the lies he tells are so transparent that one could expose them easily. "I tried to phone you but your line was busy" -- in the meantime you were home & not on the phone & so you know he is telling lies. Very maddening. I was dropped off here by Joe Pascoe, who is thoughtful -- near itself. I changed into my work clothes & walked down to City Hall. I stayed for about 45 minutes & then came back here. John and Paul & Jimmy & Ed. J. Moorehead were there. Not much work was getting done but they were all there. I got angry & that is one of the reasons why I left -- no one realized why I left. I told John that I had work to do at home & took my leave. I worked on PN 2 for about an hour and then withdrew.
